Closes

17:00 hours on Friday 7th June 2019

Location

Coventry

Job Type

Permanent

Salary

TBC

We have opportunities for graduates with a degree in Geology, Earth Sciences, Environmental Science, or Engineering Geology. Some relevant experience would be desirable, but not necessarily essential.

Reporting to the relevant Regional Operations Manager, the successful applicants shall be based at the Coventry office, and will be joining an experienced and enthusiastic team of staff delivering site investigation specialist services to our wide-ranging client base across the UK.

We work in a wide variety of sectors including the utilities, industrial and commercial, education new build, highways and rail infrastructure, contaminated land redevelopment, onshore and offshore energy and environmental sectors.

The position covers aspects of fieldwork supervision, soil and rock logging, and factual report writing. The successful candidate must possess excellent organisational and communication skills, and the successful candidate would be expected to develop their project management skills.

The position attracts a competitive salary plus other benefits. We are committed to staff development and offer relevant training.

Successful applicants will need to be able to actively participate in the following key activities:

- Fieldwork supervision of site investigations,
- Soil and rock logging to current standards,
- Promote our full range of services,
- Development of Project Management skills to work towards being able to take on the day to day responsibility for planning, supervision and programming of Site Investigation projects.

The ideal candidates will meet the following criteria:

- Qualified to degree level in a geological/geoenvironmental/geotechnical discipline,
- Computer literate and competent in use of MS Office to create spread sheets and documents for effective reporting, communication and record keeping,
- Ability to communicate effectively at all levels,
- Mobile, flexible and committed,
- Full UK Driving Licence,
- Willingness to work outdoors with a positive attitude towards Health and Safety.

To apply for this vacancy please email a copy of your CV with a covering letter to recruitment@geotechnics.co.uk
